Subject: Carbaryl Use in Floriculture

The following information is provided to you from the Western Integrated Pest Management Center (WIPMC) in response to your May 2008 inquiry regarding the importance of carbaryl in Pacific Northwest (PNW) floriculture. I am responding for the states of Alaska, Idaho, Oregon, Utah, and Washington.

With one exception the people I contacted reported that carbaryl was not used in PNW floriculture. Don Richards, president of Applied Horticultural Consulting, commented that carbaryl was used and that the use was primarily confined to outdoor control of beetles.

I hope that you find this information useful. I am attaching a contact sheet should you have further questions.

Sincerely,

A handwritten signature in cursive script that reads "Jane M. Thomas".

Jane M. Thomas
