Riverdale, MD 20737-1237

The following information is provided to you from the Western Integrated Pest Management Center regarding the use of chloroneb in the six-state Pacific Northwest region comprised of Alaska, Idaho, Oregon, Montana, Utah, and Washington. This information is being sent in response to your request to Rick Melnicoe, Western Integrated Pest Management Center Director, March 21, 2005.

I have made inquiries with respect to chloroneb use on the major crops cited in your March e-mail. None of the people I contacted reported that chloroneb was currently used on these crops.

Thanks you for providing us this opportunity to provide input into the reregistration process.

Sincerely,

A handwritten signature in cursive script that reads "Jane M. Thomas".
