Subject: Re: Info Needed Soon (Fw: EPA Request for information on endosulfan use on greenhouse tomatoes)

Teung,

CA used very little endosulfan on non-processing tomatoes in 2008. The figures below are for "Tomatoes" that may or may not include greenhouse use.

Tomato/Endosulfan,
7 applications, 0.46% of base acres treated,
232 base acres treated,
248 lbs ai used.

Let me know if you have further questions.

Rick
