Subject: Revised PNW Wheat Acreage Above 5000 Feet

Hi Rick,

I have an updated estimated on the wheat acreage in our region that is above 5000 feet:

Alaska – 0 (I did confirm this with Tom.)
Idaho – 108,000 acres
Oregon - 0
Montana – 25,000 acres
Utah – 25,000 (This is different than wheat I gave you previously.)
Washington - 0

I will be in tomorrow and then gone until June 2. Let me know if there is anything else you need on this. ~ Jane
